关于国机润滑

国机润滑前身为广研润滑所，是国内最早从事金属加工液及润滑材料研究单位之一。

参与起草制订了多个润滑油国家标准和行业标准。

开发了多种可替代进口的金属加工液及特种润滑油产品,并获得国家和地方政府奖励。

SINOMACH-LUB origins from the Lubrication Research Institute of GMERI, has been researching lubricants and metal working fluids for over 50 years.

We have developed a lot of advanced lubricating products and got many national and local government awards.

Participated in the drafting of several national and industry standards.
